

SUBCONTRACTORS

Faster, Easier, Smarter Progress Claims — from Start to Finish

Payapps is the simple online tool that helps subcontractors take the stress out of progress claims. Prepare and submit claims quickly, track retention and variations with ease, and get your claims approved faster — all while improving your relationships with your clients.

No spreadsheets, no confusion. Just a clear, consistent process that keeps your claims moving and your cash flow healthier.

Trusted by thousands
in construction — and
recognised globally:

Spend Less Time on Admin and More Time on Site

Quick to Learn, Easy to Use

Start submitting claims in minutes. Payapps is designed for subcontractors, not accountants.

Submit From Anywhere

In the office, on-site, or on the go. Payapps works on any device, anytime.

Track Retention and Variations

See where you stand on every project with live visibility of retention and variation status. Submit detailed variations with supporting documentation, and stay informed on approvals to plan work and cash flow more effectively.

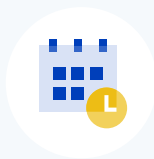

Upload and Manage Documents

Attach compliance documentation and supporting evidence to streamline approvals and minimise back-and-forth.

Accurate, Standardised Claims

Submit clean, consistent digital claims with full supporting documentation. Track real-time status to stay informed, avoid errors, and improve financial planning.

Built-in Reminders

Never miss a claim deadline again. You get reminders to submit on time — and your builder gets reminded to review.

Integrated with Accounting Systems

Push approved claims directly into Xero, MYOB, QuickBooks and more — no double handling. Invoice data matches approved claims exactly, reducing errors, disputes, and admin.

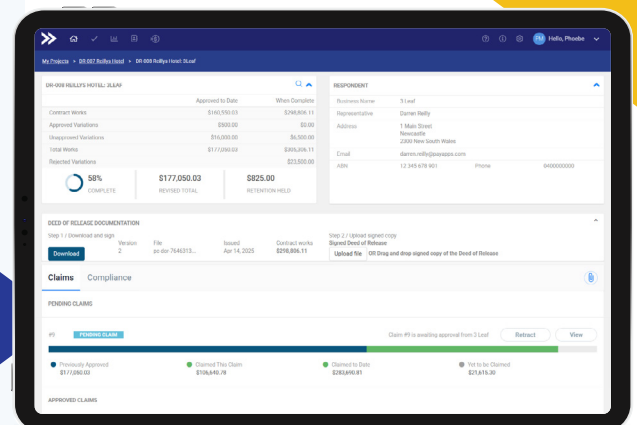

It saves a ton of time and streamlines the process. It gives us a real sense of security that we are claiming the correct values and that everything is accurate. It enables us to track everything.
