

Six Reasons The Best Builders Trust Payapps

1 Saving Your Team Time

Significantly reduce hours spent each week on **claim admin by up to 50%** and get time back to focus on core project tasks.

2 Increasing Project Visibility

Real-time tracking of progress claims, variations, and retention with optional integration to construction ERP or accounting software.

3 Effortless Compliance

Meet the regulatory requirements of SOPA (Australia) and CCA (New Zealand) with built-in reminders, approval workflows, audit trails, and subcontractor document compliance.

4 Reducing Financial Risk

Enhance margin protection with robust management of retention and variations, eliminating costly disputes and project delays.

5 Improving Collaboration & Relationships

Standardised claims and real-time status visibility foster better collaboration and mitigate reputational risks for your business.

6 Reducing Project Risks

Timely reviews and approvals of progress claims mitigate the risk of work disruptions and missed delivery deadlines.

Trusted by BCI Top 50 Companies*

"As a business we had underestimated how long it took teams to reconcile claims to the previous month's accounts. It is no longer an issue at all with Payapps – it is just correct, the way it should be."

Carlos Gonzalez
State Commercial Manager,
ADCO Constructions

#7 the BCI Construction League Top 50 Builders 2025

"It makes more sense to build on what we've already established. We've long utilised Jobpac as our financial management platform and Procore for project management – the seamless integration of Payapps with Jobpac is crucial for Buildcorp's operations."

Toni Hall
Group Commercial Business
Systems Manager, Buildcorp
